

Nepal COVID-19 Relief Fund

11.07.2021

Kathmandu, Nepal

Overview

During the second Lockdown in Nepal (April 26) brought by COVID-19, the members of Hannah day care centre and the surrounding community took a hard hit financially. Most of the members of both the daycare and the community are daily wage workers and do not have a source of income during this time of lockdown. Children did not have proper food to eat as well as sanitation. In this time, we were able to receive help from Nepal-Inzlingen. Brother Klaus Bender reached out to us and we were able to communicate and support the people in need. We were able to help the needy people twice.

Goals

1. Support the people who do not have proper nutrients.
2. Look after the daycare children as well as the surrounding community

Breakdown of the finances
